TMA solutions

Smart manufacturing solutions

AI, Data & IoT solutions to automate production workflows, optimize operations, and improve efficiency

10+ years of experience

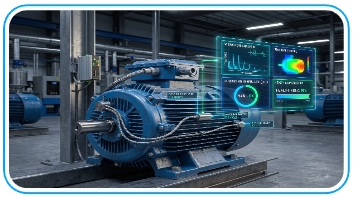

Clients in **Vietnam, Singapore, Japan, Thailand, Netherlands, South Korea, United States**

Areas of expertise

- Workflow automation
- Machine optimization
- Production analytics
- Security & safety
- Defect detection
- Predictive maintenance
- Manufacturing analytics & dashboards
- ESG & energy monitoring

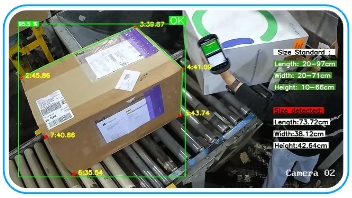

Featured projects

Predictive maintenance

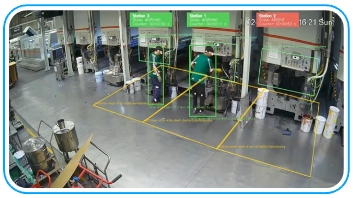

Central monitoring system

Vision-based defect detection

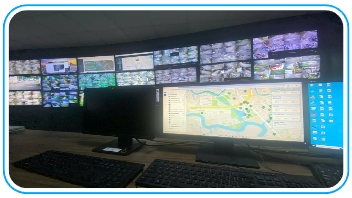

Acoustic defect detection

Worker performance analytics

Reefer container monitoring

Fire alarm monitoring

Water treatment management
