Our Competency

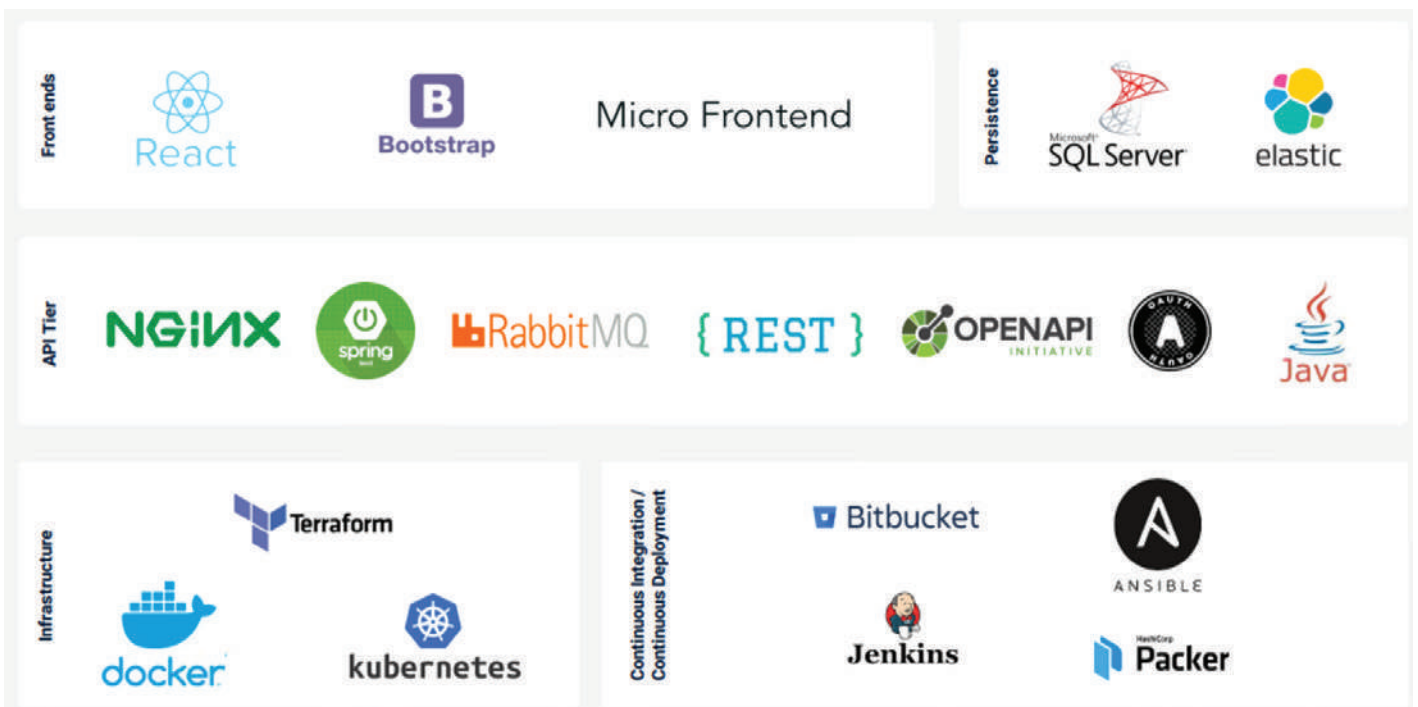

Asset Management

A market-leading provider of securities processing and wealth administration software products for the financial services industry

CORE TECHNOLOGIES AND TOOLING

Capital Markets: Post Trade Processing

Pre-Settlement

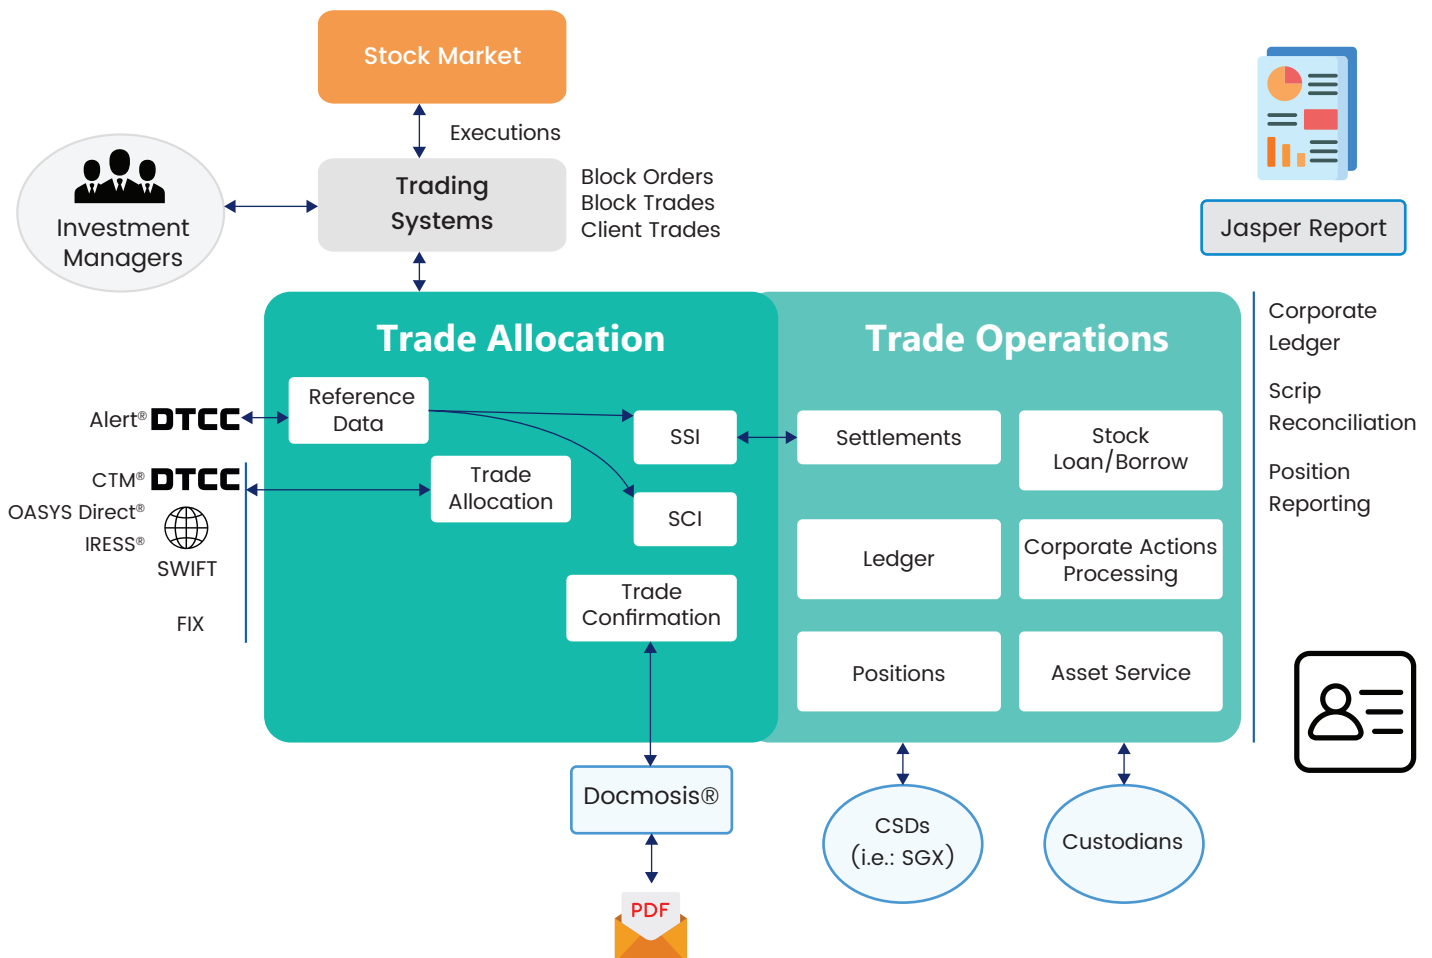

- Provides post-execution Pre-settlement transaction processing across multiple asset classes and markets.

Trade & Accounting

- Offers a powerful, flexible and fully featured securities trading ledger
- Supports Business Intelligence Reporting

Clearing and Settlement

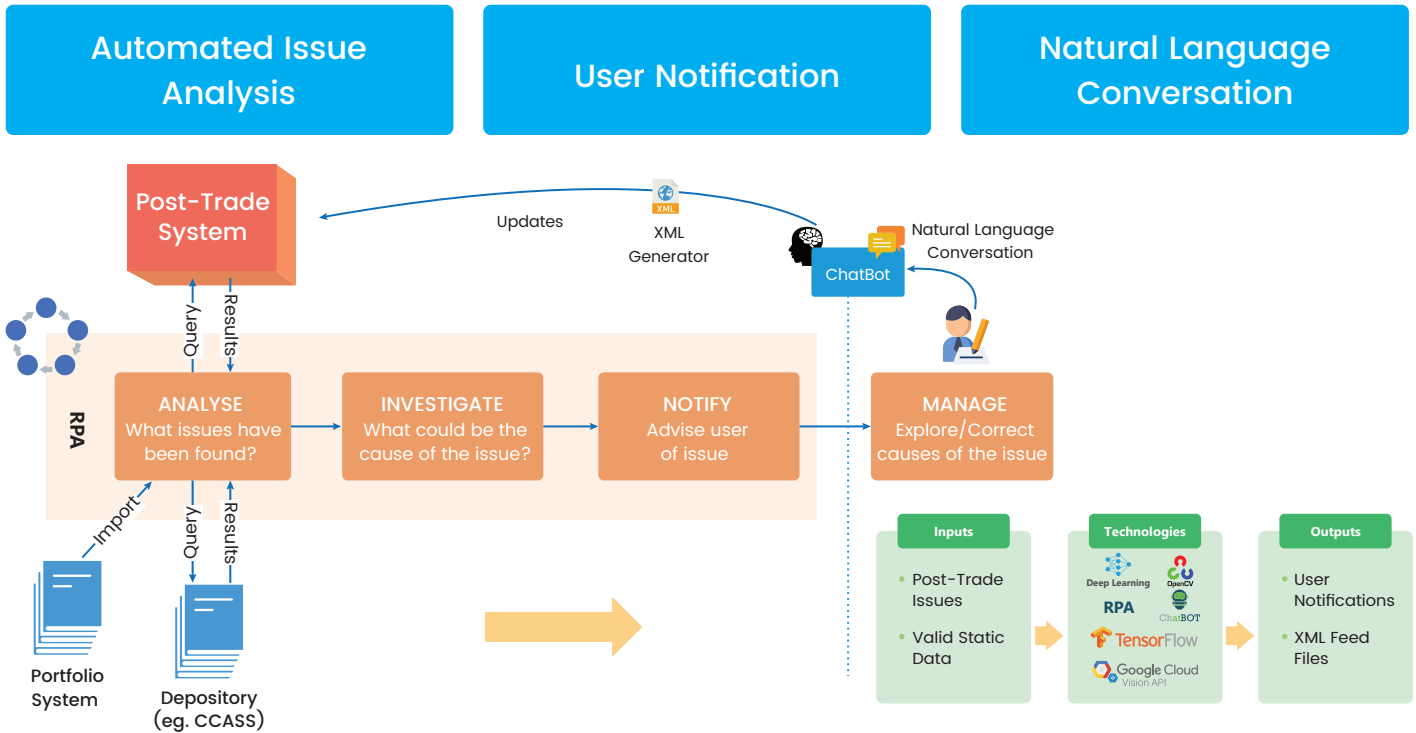

- Allows banks and brokers to perform international clearing, settlement and corporate action.
- Supports ETC protocols (e.g. Oasys, CTM, GETC, FIX, Iress), Supports all settlement types

Automated Intelligent Trade Reconciliation

Automate Trade Reconciliation between Front Office and Back Office

Robo Adviser

A tool that identifies an investor's habit, allocates their assets accordingly, a rebalance the allocation again upon top-up or withdrawal.

Provide your personal details including your name, contact details and proof of Identity.

The robo advisor works its magic and provides a recommended investment portfolio and a Statement of Advice

Sit back and relax. The robo advisor will monitor these investments for you and manage any changes to keep you on track according to your financial goals.

Step 1

Answer some questions about your assets, risk tolerance and investment timeframe.

Step 2

Step 3

Satisfied with the advice? Proceed to give your advisor permission to action the investment. This will usually involve providing your bank account details or completing a bank transfer to designated account.

Step 4

Step 5

Step 6

Remember to keep your robo advisor up to date with your financial goals, if and when they change.

NFT Marketplace Platform

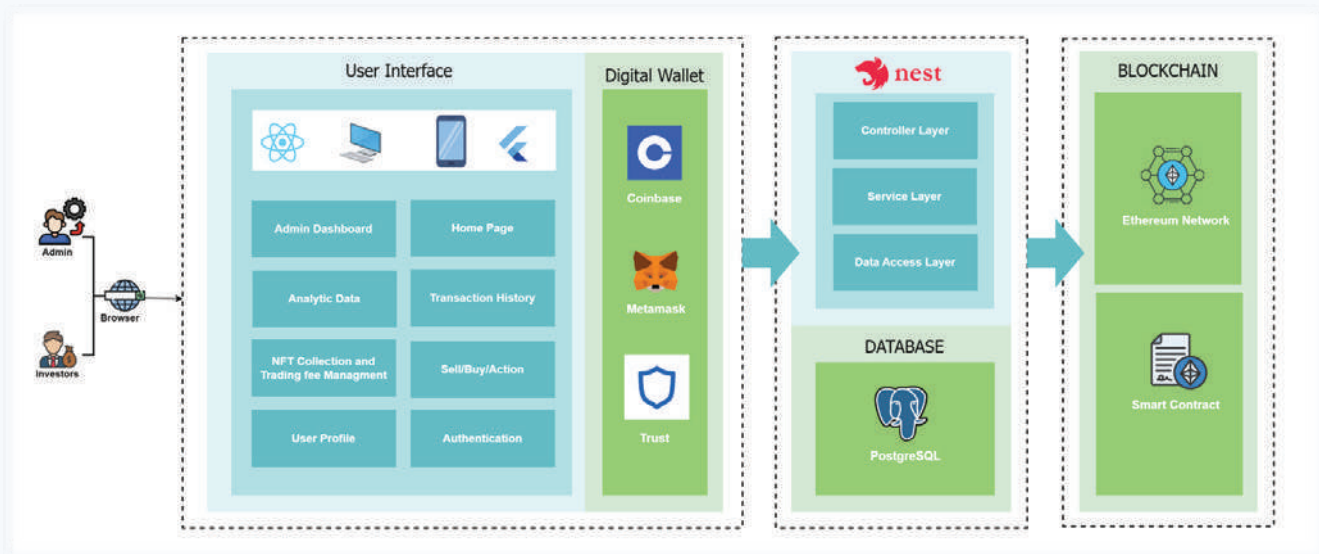

Multidisciplinary Applications

Easy To Integrate and Develop

Multiple Payment Methods
